## DISTRIBUTOR SPECIFIC COURSE CURRICULUM

1. Atkore: Conduit Product Offering Overview
2. Atkore: Steel Conduit Product Training
3. Atkore: Stainless Steel Product Training
4. Atkore: Fiberglass Conduit Product Training
5. Atkore: ETL-Verified PVC Coated Conduit Product Training
6. Atkore: Defender™ Metal Framing Product Training
7. Atkore: Eagle Basket Product Training
8. Atkore: Metal Fittings Product Training
9. Atkore: Super Fittings Product Training
10. Atkore: PVC Fittings Product Training
11. Atkore: Elbows, Couplings & Nipples Product Training
12. Atkore: Talon® Cable Cleats Product Training
13. Atkore: HDPE Conduit Product Training
14. Atkore: HDPE High-Level Product Offering Training
15. Atkore: HDPE Department of Transportation Market Opportunity Training
16. Atkore: HDPE Installation Methods Overview Training
17. Atkore: HDPE Cable-in-Conduit Product Training
18. Atkore: HDPE Micro-Path Product Training
19. Atkore: Liquidtight and Flexible Conduit Product Training
20. Atkore: MC Glide™ 101
21. Atkore: MC Glide Product Training
22. Atkore: MC Luminary® Product Training
23. Atkore: Parking Deck/Lot MC Luminary Cables Product Training
24. Atkore: Cable Tray and Wire Basket Product Training
25. Atkore: Resources and Tools

# COURSE OVERVIEW

To complete the course, individuals must take all the individual modules in order and pass closing quizzes to receive a completion certificate.

Atkore has expanded its range of training options to provide flexible and comprehensive product training for our partners. We offer a diverse selection of training formats, Customer Specific Course Curriculums, Onsite Instructor Led Certification Training (CIT, CEU), Solutions That Drive Growth Webinar Series, and On Demand Learning.

Discover the Atkore learning communities to find schedules and locations that suit your needs. The Atkore Training Program is designed to enhance your understanding of our product solutions for various applications. Regardless of whether you enroll in instructor-led classes, live webinars, e-learning courses, or recorded content, we have the resources to support your learning journey. Take the first step towards expanding your knowledge by registering today.

## MODULE 1 ATKORE: CONDUIT PRODUCT OFFERING OVERVIEW

This course covers Atkore's top conduit solutions for electrical contractors and building professionals, highlighting how Atkore's products ensure reliable and efficient wiring.

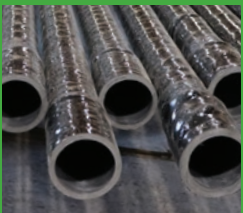

## MODULE 2 ATKORE: STEEL CONDUIT PRODUCT TRAINING

Discover Atkore Steel Conduit, designed for durability and maximum protection in tough conditions, ensuring long-lasting electrical infrastructure.

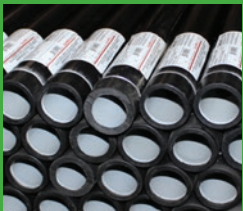

## MODULE 3 ATKORE: STAINLESS STEEL PRODUCT TRAINING

Discover Atkore Stainless Steel Conduit, engineered for durability and maximum protection in tough conditions, ensuring long-lasting wiring.

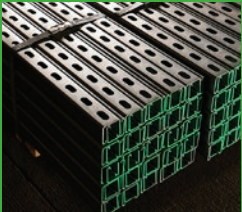

## MODULE 4 ATKORE: FIBERGLASS CONDUIT PRODUCT TRAINING

This course covers fiberglass conduit's composition, properties, and advantages, including its durability and environmental resistance, to help you effectively use it in challenging conditions.

## MODULE 5 ATKORE: ETL-VERIFIED PVC COATED CONDUIT PRODUCT TRAINING

Learn about PVC coated conduit, fittings, and accessories specifically engineered for environments that are prone to high corrosion.

## MODULE 6 ATKORE: DEFENDER™ METAL FRAMING PRODUCT TRAINING

Learn about its superior performance compared to hot-dipped galvanized products, labor savings through self-healing capabilities, material cost savings, and extended service life.

## MODULE 7 ATKORE: EAGLE BASKET PRODUCT TRAINING

Explore Eagle Basket's strength, quick latch technology, and innovative accessories for efficient installation.

## MODULE 8 ATKORE: METAL FITTINGS PRODUCT TRAINING

Atkore offers a full line of 1,400 plus metal fitting solutions and over 30 US patents, including innovations like space saver connectors, raintight EMT compression connectors and couplings, and insulated conduit bushings.

## MODULE 9 ATKORE: SUPER FITTINGS PRODUCT TRAINING

Learn how Universal Super Fittings eliminate field threading, enable easy connection in tight spaces, and provide universal compatibility.

## MODULE 10 ATKORE: PVC FITTINGS PRODUCT TRAINING

Participants will learn about different types of fittings, including injection molded and fabricated fittings, and their features.

**MODULE 11**  
**ATKORE: ELBOWS, COUPLINGS & NIPPLES PRODUCT TRAINING**

Explore Atkore's extensive product portfolio of elbows, couplings, and nipples for electrical conduit systems.

**MODULE 12**  
**ATKORE: TALON® CABLE CLEATS PRODUCT TRAINING**

Learn about how Talon® Cable Cleats easily mount on ladder-type cable trays, framing channel strut, or structural surfaces without cumbersome mounting brackets.

**MODULE 13**  
**ATKORE: HDPE CONDUIT PRODUCT TRAINING**

This course covers HDPE manufacturing, applications, and benefits, including flexibility and corrosion resistance. Learn about its installation methods, packaging, and cost effectiveness.

**MODULE 14**  
**ATKORE: HDPE HIGH-LEVEL PRODUCT OFFERING TRAINING**

Designed for pro's seeking a high-level understanding, it delves into the versatility and benefits of HDPE, making it ideal for those looking to grasp its potential across diverse industries and projects.

**MODULE 15**  
**ATKORE: HDPE DOT MARKET OPPORTUNITY TRAINING**

This module introduces the opportunity in the commercial & industrial markets for HDPE sales through each state's Department of Transportation and tips for taking advantage of this route.

**MODULE 16**  
**ATKORE: HDPE INSTALLATION METHODS OVERVIEW TRAINING**

This course covers HDPE pipe installation, focusing on cost savings, speed, flexibility, durability, and methods like direct burial, micro-trenching, HDD, plowing, and fusion techniques.

**MODULE 17**  
**ATKORE: HDPE CABLE-IN-CONDUIT PRODUCT TRAINING**

This course introduces power utility contractors to Atkore's HDPE Cable-in-Conduit system with pre-installed cables, covering specs, installation, cost savings, and standards.

**MODULE 18**  
**ATKORE: HDPE MICRO-PATH PRODUCT TRAINING**

This course covers Micro-Path's advantages for conduit replacement in tight spaces, ideal for telecom, utilities, healthcare, transportation, and other high-speed communication needs.

**MODULE 19**  
**ATKORE: LIQUIDTIGHT AND FLEXIBLE CONDUIT PRODUCT TRAINING**

From data centers to extreme temperature locations, this course covers the use in environments exposed to dirt, dust, moisture, and other corrosive elements.

**MODULE 20**  
**ATKORE: MC GLIDE™ 101**

Learn more about Atkore MC Glide product line with our 101 course. Atkore has a vast array of MC Products including Fire Alarm, Luminary, Lite, Tuff and more.

**MODULE 21**  
**ATKORE: MC GLIDE™ PRODUCT TRAINING**

Discover MC Glide's features, benefits, and compatibility, along with common installation challenges, to confidently recommend this efficient cable solution.

**MODULE 22**  
**ATKORE: MC LUMINARY® PRODUCT TRAINING**

Discover how MC Luminary Cables enhance commercial lighting with insights into their history, code updates, and benefits for LED and fluorescent dimming, offering efficient, cost-effective solutions.

**MODULE 23**  
**ATKORE: PARKING DECK/ LOT MC LUMINARY CABLES PRODUCT TRAINING**

Explore the applications and environments where these cables excel, including their construction, connectors, and advantages over traditional raceway methods in commercial and industrial circuits.

**MODULE 24**  
**ATKORE: CABLE TRAY AND WIRE BASKET PRODUCT TRAINING**

Cable trays are rigid support systems for electrical cables and raceways. Atkore offers a variety of options, from single support frames to complex modular designs.

**MODULE 25**  
**ATKORE: RESOURCES AND TOOLS**

From product catalogs to installation guides and calculators, equip yourself with the resources needed to excel in your projects and achieve success.
